

**Wemhoener VARIOPRESS Professional 3000**  
KTM 34/15-300

Wemhoener Press Typ : KTM 34/15-300 VARIOPIN PROFESSIONAL 3000

- 3 tables with automatic pin system 3200mm long
- with turn over device
- with paternoster
- Automatic foil cutting system
- full automatic foil lay down system

Year of construction December 1999

Press system Hydr. single daylight down stroke Press body consists of steel frames which are bolted together to form a closed unit. Each frame is manufactured out of a single piece.

PIN SYSTEM: YES (3 TABLES WITH AUTOMATIC PIN SYSTEM) 3200 X1320MM

MEMBRANE: YES

Heating platen dimensions: 3400 mm x 1500 mm electrical- with oil circulation

Max. operating area Feeding width: 3200 mm x 1320 mm

Max. size of panel 3150 mm x 1250 mm

Foil type: 1400 - 1450mm - PVC, PET, PP, ABS, veneer, HPL

Foil storage Paternoster: for 8pcs of foil 500mm

Automatic foil down system: Yes with auto foil- cutting unit

Press modes: - with Membrane and without Membrane

-Simultaneous press process

Pressure chamber height: 40 mm +15mm Multifunction frame =55mm

Max thickness of panel: max. 35 mm

Additional aluminium frame: 3 frames of extra 15mm

Max thickness of panel with extra frame: max. 50mm

Multi function frame: Yes 15mm

Daylight opening: ca. 250 mm

Number of pressing cylinders: 5

Diameter of press pistons: 155 mm and 250 mm lifting way

Number of press tables: 3 with automatic pin system

Max. pressure of press: 3000 kN

Chamber pressure: max. 6 bar

Operating pressure of the hydraulic system: max. 320 bar

Operating voltage: 400 V

Control voltage: 24 V

Brake voltage: 200 V

Frequency: 50 Hz

Installed power Supply: 65 kW

Necessary air pressure: min 8 bar

Operating temperature: max. 160C

Membrane Clamping System at all four sides of the press.

Control cabinet: operating panel, Siemens, Type Simatic S7

2 auto lift stations: ca. 3.605 x 1.500 mm, lift 1.250 mm, load rating 600 kg

Weight of press approximately: 25.000 kg,

Size of the line: approximately 20,5m long
