

TigerRack

TigerRack™ is an automated rack and pinion style stop for pushing, pulling, or positioning material up to 720 pounds.

TigerStop®
fast and accurate...every time

Fast and Accurate Automation for Any Sized Shop

Add a TigerRack on to your new or existing machine tool. Type in your desired measurement, place your material, and press start. Say goodbye to your tape measure. It's that simple.

Zero Set Up Time

Do away with "measure twice, cut once". Eliminate tape measures, manual stop blocks, and clamps from your manufacturing process.

Robust and Reliable

TigerRack offers precision, accuracy, and speed for your industrial positioning applications. TigerRack's precision rack and pinion drive system will keep your production humming. Designed for processing tube, bar stock, and heavier materials up to 720lbs.

No More Rework

Quality control starts with TigerRack.

Increased Productivity

Keep your operators in the money making zone: cycling your saw, drill, or punch.

Easy to Operate

An unskilled operator can be trained to use a TigerRack to push, pull, and position material in under 10 minutes.

Improved Yields

Raw material costs are rising. Using a TigerRack, especially one with Dynamic Optimization™ software, maximizes yields. That's profit added to your bottom line.

THERE ARE OVER **783,820,800** WAYS TO **CONFIGURE** A TIGERSTOP BRAND MACHINE.
BUT IT'S REALLY ONLY **4 STEPS**.

Build your very own by visiting:
www.configurator.tigerstop.com

Choose Your Tools.

TigerRacks can adapt to virtually any machine tool.

Choose Your Tables:

- Solid
- Steel Roller
- Plastic Roller

Choose Your Software.

- Backboard Optimization™
- Dynamic Optimization™
- Dynamic Pack Optimization™
- Flooring Optimization™
- TigerSet
- TigerSDK Open Source Software Development Kit
- TigerLink 6 Cut List Downloading software

Choose Your Accessories.

- Label Printing
- Bar Code Scanning
- Table Accessories
- Various Pushers

Every TigerRack comes with a Standard Interconnect Kit for a semi-automatic operation. Contact TigerStop to learn about going fully automatic with the Advanced Interconnect Kit.

STANDARD PUSHER

TUBE AND PIPE GRIPPER

TIGERRACK BRAKE

AUTO FLIP CARRIAGE
