

Torit® Cyclone Collectors

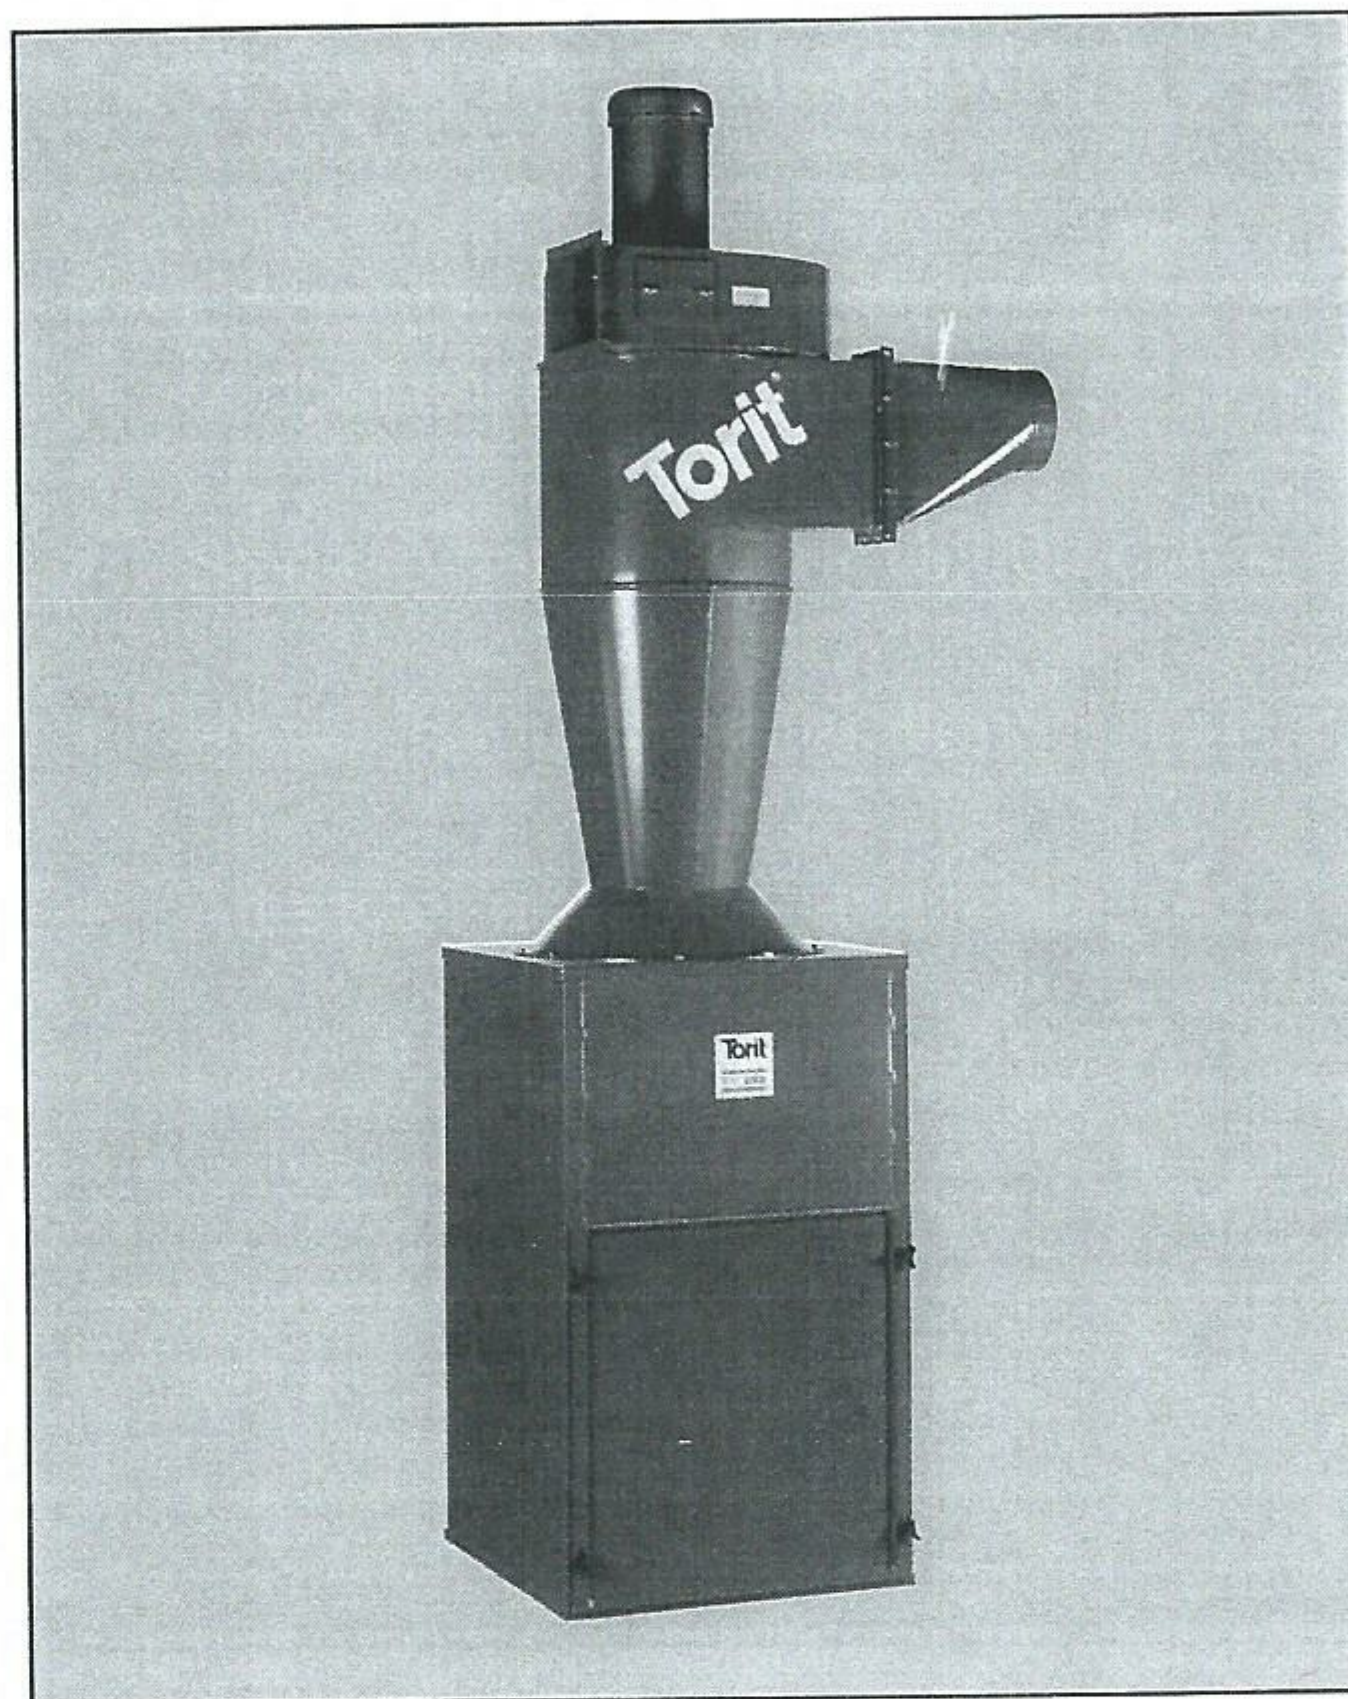

Models 13, 19, 20, 24, 30, 36, and 44

Torit Cyclone Collectors

- Efficient solution to a wide range of dust collection problems
- Sizes to handle 300 - 13,000 cfm
- Heavy-gauge construction
- Afterfilter assembly available
- Low operating costs

Cyclone with Afterfilter Assembly

Cyclone with Dust Drawer

The Torit Cyclone Collectors provide an efficient solution to a wide range of dust collection problems including buffing and polishing, woodworking, and metal grinding. The heavy-gauge, all-welded construction makes them particularly well suited for applications with heavy dust loads and high temperatures.

The material-handling fans provide high performance at low horsepower, minimizing operating costs. With the fan on the clean air side, dust is deposited in the base before reaching the fan, saving the cost of repairs and providing consistent performance.
